REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses a method and apparatus for incorporating non-pilot symbols along with pilot symbols to improve the estimate of the characteristics of a communication link. A search of prior art references fail to teach a method comprising; "assigning a non-fixed weight to each of one or more non-pilot symbols, the non-fixed weight being variable and a function of the samples corresponding to the associated non-pilot symbol; and using the assigned non-fixed weights for the one or more non-pilot symbols to generate the channel estimate" or a pilot filter comprising; "one or more multipliers configured to receive and weigh samples corresponding to pilot symbols with one or more first coefficients to provide first weighted samples, and to receive and weigh samples corresponding to non-pilot symbols with one or more second coefficients to provide second weighted sample, and a summer coupled to the one or more multipliers and configured to receive and combined the first and second weighted samples to provide pilot estimates" as disclosed in claims 1 and 18 respectively. Nor does the prior art teach a rake receiver comprising; "a pilot filter coupled to the second processor and configured to receive and filter the second samples to provide pilot estimates, wherein the pilot filter is further configured to weigh samples corresponding to pilot symbols with a first set of one or more weights and to weigh samples corresponding to non-pilot symbols with a second set of one or more weights, and a pilot demodulator coupled to the first processor and the pilot filter and configured to receive and demodulate the first samples with the pilot estimates to provide recovered symbols" as disclosed in claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence B Williams whose telephone number is 571-272-3037. The examiner can normally be reached on Monday-Friday (8:00-5:00).
